

DEVELOP A PYTHON SCRIPT

| | |
|--------------|---|
| Team ID | PNT2022TMID33556 |
| Project Name | Personal Assistant for senior people who are self-reliant |

SCRIPT:

```
a=int(input())  
b=int(input()) c=a+b  
print ("The sum is",  
c)
```

The screenshot displays the PyCharm IDE interface. The main editor window shows a Python script named `main.py` with the following code:

```
1 a=int(input())  
2 b=int(input())  
3 c=a+b  
4 print("The sum is", c)
```

The Run console at the bottom shows the execution of the script. The command executed is `C:\Users\HP\PycharmProjects\IBM\venv\Scripts\python.exe C:/Users/HP/PycharmProjects/IBM/main.py`. The output of the script is `The sum is 12`, and the process finished with exit code 0.
