

PROJECT DESIGN PHASE-I
PROPOSED SOLUTION

Date	23 September 2022
Team ID	PNT2022TMID33556
Project Name	Personal Assistance for Seniors Who Are Self-Reliant

PROPOSED SOLUTION TEMPLATE:

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	How to remind the peoples to take the correct medicine on time?
2.	Idea / Solution description	Making a device which will intimate the people with medicine name to take the medicine at particular time.
3.	Novelty / Uniqueness	Instead of person monitoring the people to remind them to take medicine , a device will remind them at correct time to take the medicine.
4.	Social Impact / Customer Satisfaction	Even a user has a busy schedule in a day our model will remind the users at particular time to take the correct medicine. So the health of the user will be in good condition.
5.	Business Model (Financial Benefits)	Instead of paying to assist for reminding to take the medicine, here our model replaces the assist. So it will reduce the financial cause of the users.
6.	Scalability of the Solution	It is light weighted and easy to work. It will work automatically without human interference.
